Affiliate marketing scheme

Listed below in an easy to read format are the products provided from the onlinehosters group.

This is a very simple no strings attached way to earn yourself money by telling people you meet day to day about our business products. The more you communicate these products the more money you will earn. You can of course work on this full time and make it as lucrative as you want.

If you have any questions about any of our products we will be more than happy to explain them in more detail for you own understanding.

An example of how this works

Step 1

In general conversation you communicate a product with someone who seems to be interested

Step 2

You take their details and enter them onto our system which we will provide you access to

Step 3

Once the lead is entered on to the system a member of onlinehosters will call the potential customer to give advice on the product they are most interested in

Step 4

If the potential customer agrees to sign up for the product and pays in full we then pay you via what method suits.

The customer's account will then appear in your affiliate account so you can keep track of the sales you're making.

There are many ways to sell our products, this can be:

- via email
- Word of mouth
- On your web site with a special link provided by us
- Social networking sites like twitter and face book.
- Telephone sales

We will provide all the support you need and in some cases such material like email flyers, flyers, business cards with your contact details.

It is totally free to register and become part of this growing business, make lots of extra cash or go full time and earn an unlimited yearly wage. [Click here to register for the affiliates program.](#)
