Customer Feedback - onlinehosters.com

I have 2 hosting accounts at the moment and find yours to be the most superior I have ever used so to improve perfection is impossible, I use hostmonster as well for my .com domains, the hosting size and the site add-ons are better on there site but to be honest I have not had to use the support as I only play with my sites there so cant comment, don't think that they will ever come anywhere near your standards.

Marc, total-sports.co.uk

We are delighted with the Site and the exceptional service we have had from Online Hosters. Not being the most technically literate of people, we can say, without fear of contradiction, that this is the firm to help, nurse & get you exactly the Site, and service, that you want, in an easily understandable manner, and with, in our case, endless patience & good humor! we cannot recommend them enough.

Alan, cumbriadiscounttackle.co.uk

I emailed onlinehosters asking about their service I received an email within 5 minutes from a designer telling me all I needed to know, I told him what I required and he got straight to it. He built my website from the ground up and also set up all my courier booking forms form me. When I asked a question to him he always emailed straight back with full detailed answerers and still now if there's anything I need help with I can email him and he's always there cheers Im really happy.

Danny, Rapidsend

Excellent service. Guys set up my account and trasferred to their server for free to check if everythings working. I get live support via chat 24/7 and ticket system. Since my website was transferred to the Onlinehosters.com, it opens with the speed of light. Kevin and Graham are great and help with any questions or issues straight away. Will definitely not change the hosting company anymore. Great value for money. Check how fast their servers really are

Martin, www.kredyt-hipoteczny.co.uk.

Very happy with the site and service my website was built to time scale well recommended

Graham, deltaaerials.com

What can i say I am not technical in any way shape or form and I am now running my own online business from the guidance and support of this company, I have tried a couple of other providers and as I say there help has set me on my way in my online business adventure thanks so much never forget it guys.

Colin, Strictlystaffdogs.com

Hi,

I just wanted to drop you a quick line of thanks for the excellent help in setting up my new hosting package this morning. You made things very clear and I was very impressed with the level of control I have over my new package.

Kind Regards

Mark Lamb
